The Colorado Center for Biorefining and Bioproducts (C2B2) is a research and education consortia that mobilizes student academic researchers and industry partners for the advancement of renewable bioenergy technologies.

Join C2B2 in the Rocky Mountains this summer for the 9th annual Research Experience for Undergraduates Program (C2B2 NSF/REU). The program will run May 20 to July 29, 2017!

Participants in this program will be researching biotechnology, bioproducts and biorefining through our research thrusts:

- Feedstock Engineering, Plant Biotechnology and Crop Science
- Biochemical and Thermochemical Conversion
- Process and Product Engineering
- Lifecycle Assessment and Economic Viability

All Majors are eligible to apply!
Biology, Chemistry, Chemical & Biological Engineering, Crop Sciences, Economics, Mathematics, Mechanical Engineering, Physics & MORE

Research fundamental scientific challenges of renewable energy. Work with research mentors at one of four C2B2 sites:

University of Colorado Boulder  
Colorado State University  
Colorado School of Mines  
National Renewable Energy Laboratory
