

SUCCEED IN STEM: Leveraging Your Potential for a Successful Career

**Monday, March 27, 2:00 PM – 5:00 PM
University Club Ballroom**

Join a group of recent Pitt alumnae as they share their experiences on building a STEM career, capitalizing on opportunities, succeeding in STEM as a woman or minority, and finding a balance between career success and a fulfilled life.

All are welcome to participate in the panel discussion, breakout sessions, and a networking social.

RSVP recommended but not required: <http://bit.ly/2nwlfnK>

Sponsored by the University of Pittsburgh Honors College

Featured Speakers:

Anna Quider, Ph.D. ('07, Physics and Astronomy, Religious Studies, History and Philosophy of Science), Director of Federal Relations at Northern Illinois University

Sossena Wood ('10, Electrical Engineering), Ph.D. Candidate and Graduate Student Researcher in Bioengineering at Pitt

Edlyn Levine, Ph.D. ('11, Physics), Senior Engineer at The MITRE Corporation and Research Associate in Physics at Harvard University
