Subject: Summer Research at the University of Delaware for undergraduates with disabilities

Science & Engineering Leadership Initiative

## Research Experience for Undergraduates to Support the Advancement of Students with Disabilities at the University of Delaware

Dear Colleagues,

We are writing you today soliciting help identifying candidates for our Research Experience for Undergraduates (REU) program in Chemistry and Biochemistry (broadly defined). Our REU program is unique in that we are focusing on providing students with disabilities a research and community building experience tailored to fostering success in graduate school and beyond. The REU program is scheduled from June 10, 2019 to August 9, 2019 at the University of Delaware. The application is due February 1, 2019. More information can be found here and on the attached flyer.

If you have any questions please contact us at <a href="http://sites.udel.edu/seli-ud/">http://sites.udel.edu/seli-ud/</a> research-experience@udel.edu.

Sincerely,

Dr. Karl S. Booksh and Dr. Sharon Rozovsky

Department of Chemistry and Biochemistry University of Delaware

## FOR UNDERGRADUATES Science & Engineering Leadership Initiative (SELI)

The University of Delaware, Department of Chemistry & Biochemistry, is excited to announce a NSF-funded Research Experience for Undergraduates (REU) program – the Science and Engineering Leadership Initiative. Motivated by the realization that people with disabilities are significantly underrepresented in Science, Technology, Engineering, and Mathematics (STEM) disciplines, SELI strives to position today's students with disabilities to become tomorrow's leaders in academia and industry.

00000000

JUNE 10, 2019 - AUGUST 9, 2019

APPLICATION DEADLINE: FEBRUARY 1, 2019

00000000

- » Participate in state-of-the-art research
  - » Meet like-minded peers
    - » Scientific field trips
- » Mentoring for graduate school and STEM careers
  - » Expand your personal resource network
- » Stipend and housing provided for 9-week program
- » Present your work at the University of Delaware 2019 Undergraduate Research & Service Learning Celebratory Symposium
  - » Opportunity to present research results at the Spring 2020 American Chemical Society National Meeting
