Join us tomorrow for our final event of the Fall term! Our three-part series on teaching at community colleges will conclude with a panel discussion on equity, diversity, and inclusive teaching in the community college setting.

Did you miss our other fall programming? Check our our YouTube channel to see recordings from our public events on high-impact teaching practices and teaching at community colleges.

Stay tuned for updates next week about our Spring 2021 programming! We will be running courses, workshops, and events starting in mid- to late January. As programming is confirmed and open for registration, we will announce it here.

Exploring Careers at a Community College

Join us this fall for a three-part event series on teaching at community colleges. Events in the series will feature community college faculty and instructional staff discussing the teaching and learning environment at their schools, how they teach to a broad diversity of students, and how they navigated the hiring process.

**Equity, Diversity, and Inclusive Teaching in the Community College Setting**

Tuesday, December 1
1-2:30PM AT / 12-1:30PM ET / 11AM-12:30PM CT / 10-11:30AM MT / 9-10:30AM PT
Community colleges are truly diverse settings, attracting individuals from all different walks of life with a common interest in advancing their education. If you are interested in exploring a career at a community college, then understanding the diversity of their student populations is crucial. This panel consisting of faculty and administrators from various community colleges will share insights on student diversity. We will also explore the types of inclusive teaching strategies that best support community college students and help to create more equitable classrooms.
