

Maria J. Doa (PhD 1985, Houk)

Maria J. Doa obtained her PhD from the University of Pittsburgh under the supervision of Ken Houk. Maria is the Senior Director of Chemicals Policy at the Environmental Defense Fund. Her primary focus has been to implement the nation's chemical safety laws to reduce exposures to toxic chemicals. Her strong scientific background has been a cornerstone of her work at the intersection of science and policy. Maria has held multiple leadership roles at the Environmental Protection Agency, most recently as the Director of the Chemical Control Division in the Office of Chemical Safety and Pollution Prevention. She co-chaired the United Nations Environment Program and World Health Organization Global Alliance to Eliminate Lead in Paints, led the United Nations Environment Program Mercury Products Partnership, and led efforts on nanomaterials as part of the Organization for Economic Cooperation and Development's Chemicals Program.
