

Dr. Jane N. Valenta is vice president, environment, health and safety (EHS) at PPG Industries. She is responsible for all EHS functions including environmental affairs, product stewardship, health, safety, compliance assurance and corporate medical. In her role, she also supports PPG's corporate sustainability efforts. Jane previously served as associate director of performance coatings at the PPG Coatings Innovation Center. She holds 10 patents. At Pitt, Jane earned her MS in chemistry in 1987 and, under the direction of Steve Weber, her doctorate in analytical chemistry in 1994.
